

TUD Dresden University of Technology (TUD), as a University of Excellence, is one of the leading and most dynamic research institutions in the country. As an important part of the TUD, the Faculty of Medicine and the University Hospital Dresden work closely together and are committed to excellence in cutting-edge medicine, medical research and teaching, and patient care for the entire region. The University Medicine Dresden sees itself as a modern employer and offers attractive working conditions to all employees in teaching, research and patient care, technology and administration and thus promotes and develops their potential. TUD embodies a university culture that is characterized by cosmopolitanism, mutual appreciation, thriving innovation and active participation. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

The Carl Gustav Carus Faculty of Medicine and the University Hospital Carl Gustav Carus of TUD Dresden University of Technology invite applications for the

Chair (W2) of Evidence-based early detection and care for young people with affective disorders

to be filled at the earliest possible date.

The chair is structurally assigned to the Department of Psychiatry and Psychotherapy and will further develop the core theme of evidence-based early detection and care for young people with affective disorders in its national and international significance. The focus will be on clinical research including health care research with promotion of a close collaboration with the Center for Evidence-Based Healthcare (ZEGV), the Else Kröner Fresenius Center (EKfZ) for Digital Health and the Institute and Policlinic for Occupational and Social Medicine (IPAS). Prospectively, gender-dependent aspects are also to be explicitly taken into account and intersectional relationships are to be made visible. In the Department of Psychiatry and Psychotherapy, you (m/f/x) will be responsible for the clinical management of the training and further education track for evidence-based early care for young people. In addition to excellent research and teaching, we expect you to play an active role in the public discourse on evidence-based early detection and care for young people with affective disorders. Furthermore, you will develop and strengthen interfaces between university and community early detection and intervention approaches based on your expertise in the active participation in relevant professional societies and networks. We strongly support your active participation in the existing research networks at the University Hospital Carl Gustav Carus and TUD, specifically in the SFB-Transregio 393 "Trajectories of Affective Disorders" and the International Research Training Group IRTG 2773 "Risks and Pathomechanisms of Affective Disorders".

As a professor, you will represent the field of evidence-based early detection and care for young people with affective disorders in adults in research and teaching. With that you will specifically strengthen the key area of the faculty "Neurological and mental health disorders" and its interconnected clusters "Prevention and Public Health" and "Medical data science and smart technologies". We would also like to see a future strengthening of diversity-sensitive research and teaching in the subject.

We are looking for a nationally and internationally recognized personality with high social competence and comprehensive expertise in the field of evidence-based early detection and psychiatric treatment of young people with affective, especially bipolar, disorders. In addition, you have several years of experience in teaching students of human medicine, epidemiology and public health as well as in the development of modern academic programs inspiring our students including doctoral students with your effective and modern teaching, and bring a high level of academic commitment and willingness to engage in constructive, interdisciplinary collaboration in research and teaching. You are experienced in the supervision of doctoral students and academic self-regulatory bodies including heading faculty committees. Appointment requirements include a completed university degree in human medicine, a doctorate and habilitation or equivalent achievements with international publications and successful acquisition of third-party funding in the subject of the denomination of this chair in large-scale research projects and networks including heading of the aforementioned, board certification for psychiatry and the permission to work clinically in Germany, as well as expertise in the conceptual development, clinical heading and budget responsibility for the outpatient, day care and inpatient care structures associated with the denomination and proof of extensive teaching experience of several years. A degree in epidemiology would be desirable. In all other respects, the requirements for appointment, the official duties and the administrative status are governed by §§ 59, 69, 71 of the Act on Higher Education Institutions in the Free State of Saxony (SächsHSG) and the Regulations on Duties and Responsibilities at Higher Education Institutions (HSDAVO).

The Faculty of Medicine strives to employ more women professors in academia and research. We therefore expressly encourage women to apply. The University is a certified family-friendly university and offers a Dual Career Service. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment. If you have any questions about these topics, please contact the Equal Opportunities Officer of the Faculty of Medicine (Katja El-Armouche, phone +49 351-458-16354) and the representative for persons with disabilities of the Faculty of Medicine (Ms Vogelbusch, +49 351-458-12127).

We are looking forward to receiving your application **by August 10th 2025** in electronic form in a single PDF file (preferred) or in hardcopy to Dekanin der Medizinischen Fakultät Carl Gustav Carus der Technischen Universität Dresden, Frau Prof. Dr. med. Dr. Esther Troost, Fetscherstr. 74, 01307 Dresden (medberufungen@mailbox.tu-dresden.de). For further details concerning the required application documents please see the homepage of the Faculty of Medicine or contact the dean's office (Dr. Janetzky, +49 351-458-3356).
