

Dresden December Meeting on "Smell and Taste" in conjunction with the Working Group on Olfaction and Gustation of the German ENT society, December 2 & 3, 2016

Dezembertagung der Arbeitsgemeinschaft Olfaktologie / Gustologie 2./3. Dezember

Invitation

Dear colleagues:

We would like to invite you to the Dresden December Meeting on "Smell and Taste" in conjunction with the Working Group on Olfaction and Gustation of the German ENT Society, 2./3. December 2016.

The meeting will be international, congress languages are German and English.

Talks may be presented in German or English, but we kindly request slides to be in English.

Location

Lecture Hall ("Hörsaal") at the DINZ, Fetscherstrasse 74, D-01307 Dresden

Location through Google Maps: Coordinates 51.058192, 13.781396

It is organized through the Smell & Taste Clinic of the Department of Otorhinolaryngology of the University of Dresden Medical School, Fetscherstrasse 74, 01307 Dresden, Germany, phone +49-351-458-4189.

Friday, December 2nd, 2016

14:00 Welcome: Karl-Bernd Hüttenbrink, Cologne

Session 1 – Olfaction Chair: Antje Hähner, Dresden

14:01 Ilona Croy, Dresden: Chemosensory Communication
14:16 Christian Mueller, Vienna: Screening of odor memory with 'Sniffin`Sticks'
14:31 Önder Göktas, Berlin: Rhinomanometry vs. rhinoresistometry in the evaluation of olfactory function
14:46 Janine Albinus, Dresden: Olfactory threshold and odor discrimination ability in children - evaluation of a modified "Sniffin' Sticks" test
15:01 Valentin Schriever, Dresden: Development of an international odor identification test for children

15:16-15:45 **Session of the WG Olf/Gust** in German
(or, if not interested, Coffee Break)
Chair: Karl-Bernd Hüttenbrink, Cologne

Guidelines: Michael Damm, Cologne
Multicentric study: Antje Hähner, Dresden
Travel award: Antje Welge-Luessen, Basel
Possible New Tasks of the Working Group: Thomas Hummel, Dresden

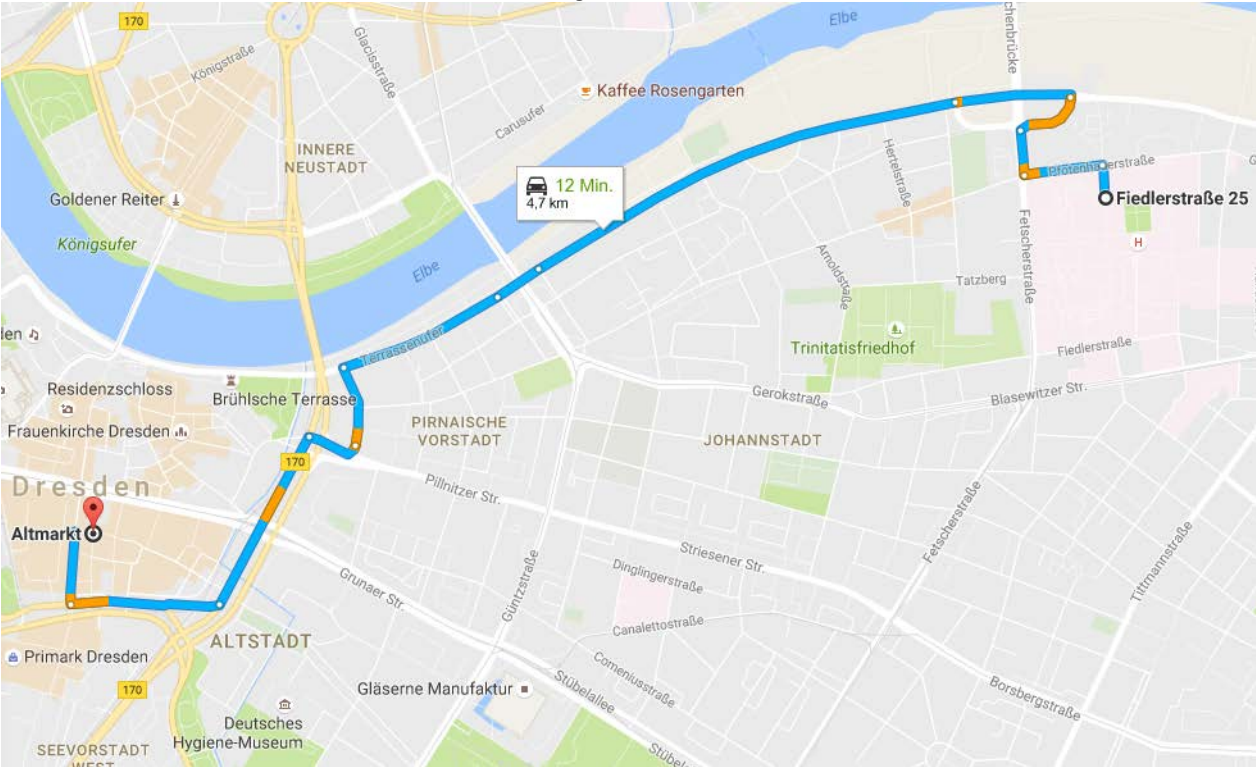

15:45-16:00 General coffee break

16:15-17:00 **Invited lecture**
Andreas Dunkel, Munich: Food's combinatorial odor codes – new knowledge on how nature recruits volatiles to make our foods smell so good
Chair: Volker Gudziol, Dresden

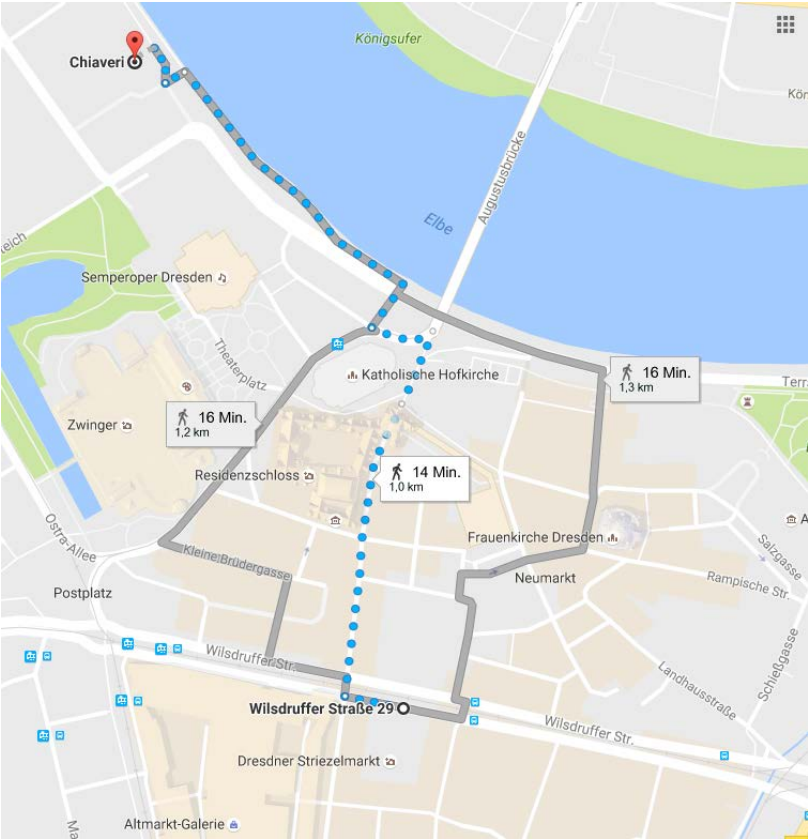

Session 2 – Olfaction Chair: Ilona Croy, Dresden

17:00 Sophia Poletti, Zurich: Differences in central and peripheral electrophysiological response to psychophysically indistinguishable odour enantiomers
17:15 Katharina Schön, Dresden: The rewarding value of food-related odors
17:30 Philipp Nahrath, Dresden: Longterm adaptation to odors
17:45 Felix Riedel, Dresden: Influence of conditioning on olfactory habituation - an EEG-study
18:00-19:00 Visit Dresdner Striezelmarkt – please get there by Tram #12 or Taxi
19:00-22:00 Dinner at the Restaurant Chiaveri (walking distance from the Striezelmarkt)

Route from Dresden University Clinic to the Strietzelmarkt

Route by foot from Strietzelmarkt to restaurant Chiaveri

Saturday, December 3rd, 2016

Session 3 – Olfaction Chair: Simona Negoias, Bern

- 09:00 Suse Fraesdorf, Dresden: An Android App for olfactory testing with the Sniffin' Sticks
- 09:15 Cagdas Guducu, Izmir: Separating Normosmic and Anosmic Patients Based on Non-parametric Entropy Evaluation of Chemosensory Event-Related Potentials
- 09:30 Cedric Manesse, Lyon: Dysosmia and quality of life in elderly people
- 09:45 Anna Oleszkiewicz, Dresden: Body-odor- and voice-based assessments of gender in sighted and blind individuals
- 10:00 Basile Landis, Geneva: REAH and olfaction: brief overview and a few clinical case examples
- 10:15 Fabian Rottstädt, Dresden: Olfactory bulb volume in patients with psychiatric disorders
- 10:30 Pengfei Han, Dresden: Olfactory brain grey matter and olfactory bulb volume in CRS patients
- 10:45 Malena Ezzat, Dresden: Treatment of post-infectious olfactory loss with citrate buffer
- 11:00-11:30 Coffee break

11:30-12:15 Invited lecture

Gabriela Krasteva-Christ, Würzburg: Role of taste sensation in innate immunity of the lower airways
Chair: Valentin Schriever, Dresden

- 12:15-12:45 Coffee break

Session 4 - Trigeminal Function and Taste

Chair: Sophia Poletti, Zurich

- 12:45 Mohammed Aziz, Dresden: Short inter-stimulus-interval in recording Olfactory Event Related Potentials
- 13:00 Timo Schultheiss, Dresden: Trigeminal Training
- 13:15 Manja Unrath, Dresden: New studies in umami taste
- 13:30 Kathrin Ohla, Potsdam: Differences in taste perception in obese and lean
- 13:45 Richard Höchenberger, Potsdam: Rapid and reliable methods for the measurement of taste thresholds
- 14:00 Simona Negoias, Bern: Taste sensitivity in patients with oral lichen planus
- 14:15 Önder Göktas, Berlin: Gustatory training - therapy of olfactory loss
- 14:30 Conclusion – Karl-Bernd Hüttenbrink, Cologne
