

Publikationen – Klinisch kontrollierte Studien

1. Gabbour G, Hoffmann Th, Gängler P (1996): Klinisch kontrollierte Studie zur Therapieeffektivität bei Parodontitis. Dtsch Zahnärztl Z 51, 370 – 372
2. Hoffmann Th, Pleier G, Gruhser E (1998): Klinisch kontrollierte Studie zum Vergleich automatisierter und manueller Sondierung der Zahnfleischtaschen. Dtsch Zahnärztl Z 53, 135 – 138
3. Pleier G, Brandes E, Pfister W, Hoffmann Th (1999): Effektivität kombinierter systemischer und lokaler antibakterieller Therapie bei RPP-Patienten. ZWR 108, 115 – 121
4. Hoffmann T, Bruhn G, Richter S, Netuschil L, Brex M (2001): Clinical controlled study on plaque and gingivitis reduction under long term use of low dose chlorhexidine solutions in a population exhibiting good oral hygiene. Clin Oral Invest 5, 89 – 95
5. Richter St, Bruhn G, Netuschil L, Brex M, Federlin-Ducani M, Hoffmann, Th (2001): Klinisch kontrollierte Studie zur Wirksamkeit einer 0,05 5igen Chlorhexidin-Mundspülung. Dtsch Zahnärztl Z 56, 193 – 196
6. Auschill TM, Arweiler NB, Brex M, Reich E, Sculean A, Netuschil L (2002): The effect of dental restorative materials on dental biofilm. Eur. J Oral Sci 110, 48 – 53
7. Arweiler NB, Henning G, Reich E, Netuschil L (2002): Effect of an amine-fluoride-triclosan mouthrinse on plaque regrowth and biofilm vitality. J Clin Periodontol 29, 358 – 363
8. Lorenz K, Netuschil L, Noack B, Brex M, Hoffmann Th (2002): Zeitdauer der antibakteriellen Wirkung Triclosan-haltiger Zahnpasten *in vivo*. Dtsch zahnärztl Z 57, 279 – 282
9. Bruhn G, Netuschil L, Richter St, Brex M, Hoffmann Th (2002): Effect of a toothpaste containing triclosan on dental plaque, gingivitis, and bleeding on probing – an investigation in periodontitis patients over 28 weeks. Short communication. Clin Oral Invest 6, 124 – 127
10. Richter St, Bruhn G, Brunel G, Hoffmann Th, Netuschil L, Brex M (2002): Etude *in vivo* de l'efficacité d'un bain de bouche contenant 0,10 % de digluconate de chlorhexidine. In vivo study of the efficacy of a 0,10 % chlorhexidine mouthrinse. J de Parodontologie & d'Implantologie orale 21, 253 – 259
11. Netuschil L, Hoffmann T, Brex M (2003): How to select the right mouthrinses in periodontal prevention and therapy. Part I: Test systems and clinical investigations. Int J Dent Hyg 1, 143 – 150
12. Brex M, Netuschil L, Hoffmann Th (2003): How to select the right mouthrinses in periodontal avoidance and therapy. Part II: Clinical use and recommendations. Int J Dent Hyg 1, 188 – 194
13. Jepsen S, Heinz B, Jepsen K, Arjomand M, Hoffmann Th, Richter St, Reich E, Sculean A, Gonzales JR, Bödeker RH, Meyle J (2004): A Randomized Clinical Trial comparing Enamel Matrix Derivative and membrane Treatment o buccal Class II Furcation Involvement in Mandibular Molars. Part I: Study Design and Results for Primary Outcomes. J Periodontol 75, 1148-1158

14. Meyle J, Gonzales JR, Bodeker RH, Hoffmann T, Richter S, Heinz B, Arjomand M, Reich E, Sculean A, Jepsen K, Jepsen S (2004): A Randomized Clinical Trial comparing Enamel Matrix Derivative and membrane Treatment o buccal Class II Furcation Involvement in Mandibular Molars. Part II: secondary outcomes. J Periodontol 75, 1188 – 1195
15. Hoffmann T, Richter S, Meyle J, Gonzales JR, Heinz B, Arjomand M, Sculean A, Reich E, Jepsen K, Jepsen S, Boedeker RH (2006): A Randomized Clinical Multicentre Trial comparing Enamel Matrix Derivative and Membrane Treatment of Buccal Class II Furcation Involvement in Mandibular Molars Part III: – Patient Factors and Treatment Outcome. J Clin Periodontol 33, 575-583
16. Lorenz K, Bruhn G, Heumann C, Netuschil L, Brex M, Hoffmann T (2006): Effect of two new chlorhexidine mouthrinses on the development of dental plaque, gingivitis, and discoloration. A randomized, double-blind, placebo-controlled, three week experimental gingivitis study. J Clin Periodontol 33, 561-567
