## 7. SCIN-Newsletter (October 2022)

Dear colleagues,

With this 7th issue of our monthly newsletter we would like to inform you again about the current status of our joint project "**SCIN** - **S**urvey on **C**urrently applied **I**nterventions in **N**eonatal resuscitation" and pass on important information to you.

### **Recruitment**

Last month we continued the recruitment and were able to recruit 4 more clinics as participants, including the first clinics from Romania, Korea and China. This brings the total number of clinics participating in the survey to 58 from 15 countries.

We are very pleased to have the opportunity to include more countries. However, additional clinics are also welcome to participate from the countries already participating. If you have not yet confirmed your participation or can refer interested clinics in your area, please feel free to contact us at [neo-survey@ukdd.de](mailto:neo-survey@ukdd.de).

	Germany	International
Participation	32	26
Interest	6	8

### **Survey**

In total, more than 40,000 children have already been born in the participating clinics during the survey period. Of these births, **a total of 5052 newborns with interventions are now recorded in our database.**

We thank you for your continued commitment and look forward to receiving the outstanding data for September!

### **Important updates**

*SCIN study protocol accepted for publication* - We are very pleased to announce that the SCIN study protocol has been accepted for publication in *Frontiers in Pediatrics* in the topic "Advances in Newborn Resuscitation" and is currently going through the final steps of the review process.
