
8. SCIN-Newsletter

Dear colleagues,

With this 8th issue of our newsletter we would like to inform you again about the current status of our joint project "**SCIN** - Survey on **C**urrently applied **I**nterventions in **N**eonatal resuscitation" and pass on important information to you.

Recruitment

At the turn of the year, we were able to establish contacts with further clinics in Germany as well as the first clinics in Italy and Japan. The interested clinics are now checking whether and when they can start collecting data.

If you have not yet confirmed your participation or can refer interested clinics in your area, please contact us at neo-survey@ukdd.de.

	Germany	International
Participation	32	28
Interest	7	8

Survey

In total, over 45,000 children have now been born in the participating clinics during the survey period. Of these births, a total of **5564 newborns with interventions are recorded in our database**. However, due to the change of year, some of the returns for November and December are still outstanding.

We thank you for your continued commitment and look forward to receiving the outstanding data!

Important Updates

14th Dresden Symposium ESPR Spring School – From **9th to 11th of March 2023** the **14th Dresden Symposium/ESPR Spring School** will take place in **Dresden, Germany**. We kindly invite all SCIN participants to take part in this meeting either live or online – a special session for discussing SCIN and possible cooperations in the future is planned!

Further information and registration details can be found at www.ukdd.de/fetoneosymposium.
