

5. SCIN-Newsletter (August 2022)

Dear colleagues,

With this 5th issue of our monthly newsletter we would like to inform you again about the current status of our joint project "SCIN - Survey on Currently applied Interventions in Neonatal resuscitation" and pass on important information to you.

Recruitment

In the last month we have pushed recruitment especially on an international level and were able to recruit 7 more clinics, including the first from Slovakia. **This brings the total number of hospitals participating in the survey to 52 from a total of 12 countries.** We are very happy about the interest and the possibility to include more countries.

	Germany	International
Participation	32	20
Interested	6	6

If you have not yet confirmed your participation or can refer interested clinics in your area, please feel free to contact us at neo-survey@ukdd.de.

Survey

Including the data collected so far for August, our database now has **a total of 3443 newborns with interventions.** We thank you for your continued commitment and look forward to receiving the outstanding data for August!

Important Updates

Presentation of SCIN at the 12th UENPS Congress in Krakow - In order to recruit more hospitals, including international clinics, preliminary, purely descriptive data were presented as an ePoster at the 12th Congress of the UENPS (Union of European Neonatal & Perinatal Societies) in Krakow. The ePoster will soon be available in the download area under the following link:
