Workshop

In Person Only

Thursday, September 14, 2023

12:30-4:30 pm **Human Factors in Simulation and Debriefing Workshop** - Nicole Yamada, MD

This workshop will focus on debriefing skills for simulation instructors and clinicians who conduct critical event debriefings. We will define principles, highlight strategies to address challenges, and discuss how to incorporate a human factors approach into debriefings. As a bonus feature, we will review laryngeal mask use during neonatal resuscitation and incorporate hands-on practice during simulations. The workshop will be led by expert, Dr. Nicole Yamada, Associate Director of the Center for Advanced Pediatric and Perinatal Education (CAPE) at Stanford University.
