

TUD Dresden University of Technology, as a University of Excellence, is one of the leading and most dynamic research institutions in Germany. As an important part, the Faculty of Medicine and the University Hospital Dresden work closely together in partnership and are committed to excellence in cutting-edge medicine, medical research and teaching as well as patient care for the entire region. The University Medicine Dresden sees itself as a modern employer and offers attractive working conditions to all employees in teaching, research and patient care, technology and administration and thus promotes and develops their potential. TUD embodies a university culture that is characterized by cosmopolitanism, mutual appreciation, thriving innovation and active participation. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

The Carl Gustav Carus Faculty of Medicine and the University Hospital Carl Gustav Carus of TUD Dresden University of Technology invite applications for the

## Chair (W2) of Medication Safety

to be filled as soon as possible.

You (m/f/x) will represent and further develop research in the field of drug therapy safety, pharmacoeconomics and epidemiology. In doing so, you will also emphasize the inclusion of gender-dependent or gender-specific aspects in drug therapy. In accordance with the interdisciplinary nature of such a research approach, we would welcome your willingness to cooperate closely with the clinics and institutes of the University Hospital and the Faculty of Medicine as well as the National Center for Tumor Diseases/University Cancer Center (NCT/UCC) and TUD and with the extra-university research institutions. The chair is associated to the management of the Pharmacy Department of the University Hospital Dresden and is scientifically located in the Integrative Center for Pharmacology and Toxicology (IZPT).

You have a research focus in the field of drug therapy safety, documented by corresponding publications and projects, and are already experienced in the management of research and working groups. Your field of research has a clear perspective in the direct translation into clinical practice in the area of supporting therapies through digital media and the utilization of real-world data. Another desirable research focus is the investigation of the influence of pharmaceuticals, both gender-related in application and on the environment. You have a broad scientific network and significant research co-operations.

We are preferably looking for an integrative personality with additional expertise in the field of pharmaceutical analytics. You have experience in conducting clinical trials according to §13 AMG. Accordingly, a position in the Pharmacy Department and in the manufacturing plant of the clinical pharmacy is possible with the appropriate aptitude.

Appointment requirements include a university degree in pharmacy, a doctorate and habilitation or habilitation-equivalent achievements in the subject of clinical pharmacy, a specialist pharmacist in postgraduate degree in clinical pharmacy and proof of extensive teaching experience of several years in clinical pharmacy as well as pharmacoeconomics and epidemiology. Applicants must fulfill the employment qualification requirements of § 59 of the Institutions of Higher Education Act in the Free State of Saxony (SächsHSG). The employment of professors with clinical-pharmaceutical tasks is generally carried out within the framework of non-tariff employment contracts with basic remuneration as well as performance and success-dependent remuneration components.

The Faculty of Medicine strives to employ more women professors in academia and research. We therefore expressly encourage women to apply. The University is a certified family-friendly university and offers a Dual Career Service. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment. If you have any questions about these topics, please contact the Equal Opportunities Officer of the Faculty of Medicine (Dr. Valtink, phone +49351-458-16124) and the representative for persons with disabilities of the Faculty of Medicine (Ms Vogelbusch, +49351-458-12127).

We look forward to receiving your application **by May 31<sup>st</sup>, 2024** in electronic form in a single PDF file or in hardcopy to Dekanin der Medizinischen Fakultät Carl Gustav Carus der Technischen Universität Dresden, Frau Prof. Dr. med. Dr. Esther Troost, Fetscherstr. 74, 01307 Dresden (medberufungen@mailbox.tu-dresden.de). For further details concerning the required application documents please see the homepage of the Faculty of Medicine or contact the dean's office (Dr. Janetzky, +49351-458-3356).
