

The Faculty of Medicine and the University Hospital Carl Gustav Carus at Technische Universität Dresden invite applications for the

## Chair (W2) of Craniofacial Orthopaedics

to be filled at the earliest possible date.

The chair is assigned to the Department of Oral and Maxillofacial Surgery. Within the interdisciplinary concept, the chair is linked with the clinical management of the Division of Orthodontics. Orthodontics has developed considerably due to digitalization and new tissue protective methods in the last years – especially in cooperation with oral and maxillofacial surgery. The chair is also part of the Else Kröner Fresenius Center for Digital Health.

You will represent and further develop orthodontics in patient care, research and teaching in an interdisciplinary setting. Accordingly, you should establish new digital and computer-based planning and treatment strategies for craniofacial malformations (cleft lip and palate, [syndromal – nonsyndromal] dysgnathia) and transfer to pre- and postsurgical treatment. Valuable interdisciplinary cooperation is also expected with respect to early infant treatment. Cooperation and further development of research projects in the therapy of craniofacial malformation are desirable. As the chair is integrated in the Else Kröner Fresenius Center for Digital Health, medical engineering, digital technology as well as additive manufacturing and printing are of essential relevance in craniofacial orthopaedics and should therefore be part of your research concept.

Prerequisites according to § 58 SächsHSFG include a completed university degree in dentistry, a doctoral degree and a post-doctoral degree/habilitation or an equivalent qualification record, specialist dental recognition in the field of orthodontics and the authorization for further training in orthodontics. Ideally, you have experience in the interdisciplinary treatment of syndrome, cleft and dysgnathia patients.

The employment of professors with medical tasks is carried out according to non-pay scale employment contracts with a basic remuneration and performance- and success-related remuneration components. The Faculty of Medicine seeks to employ more women in leadership positions and strongly encourages qualified women to apply. We also welcome applications from qualified candidates with disabilities or those with additional support needs.

Please send your application by **December 15<sup>th</sup> 2021** in electronic form in a single PDF file or in hardcopy to **Dekan der Medizinischen Fakultät Carl Gustav Carus der Technischen Universität Dresden, Herrn Prof. Dr. med. Heinz Reichmann, Fetscherstr. 74, 01307 Dresden** (meddekan@mailbox.tu-dresden.de). For further details concerning the required application documents please see the homepage of the Faculty of Medicine or contact the dean's office (Dr. Janetzky, +49 351-458-3356), the Equal Opportunities Officer of the Faculty of Medicine (Dr. Valtink, +49 351-458-6124) or the representative for persons with disabilities (Ms Vogelbusch, +49 351-458-12127).

TU Dresden understands diversity as culturally self-evident and a quality criterion of a university of excellence. Accordingly, we welcome all applicants who would like to commit themselves with their performance and personality to us and with us for the success of all. TU Dresden is strongly committed to the goal of a family-friendly university and offers a dual career service. The Faculty of Medicine also provides active support for childcare options as well as help in finding adequate jobs in the region for the candidate's partner.
